

PROCESS PEER REVIEW

During this project you have worked together as a group. During this collaboration you may have noticed certain good or bad behaviour from yourself, your group members, or your group as a whole.

Below you find a table that intends for you to identify these aspects and use the next meeting with your tutor to discuss this.

There are three things you may want to tell the targets (left column) to do:

- Stop doing behaviour that is non-constructive. E.g. arriving late at meetings.
- Keep doing behaviour that is positive. E.g. Helping group members when they are stuck.
- Start doing behaviour that could be better. E.g. Voice your opinion more.

Name & group: Aya / 4			
	Stop	Keep	Start
Aya	Worrying too much	Keep the hard work	Cool down a bit!
4	Stop worrying about the future	Communicating as we are doing right now	Focusing on today's work not what we have to do in the future!
Erfan	Stop taking some things too serious	Keep the communication and the hard work	Cool down a bit. Everything is going to be fine at the end!
Alaa	Stop being late sometimes! (submitting, answering ...)	Keep the hard work	Prioritizing between the project and other things in your life!
Alexander	Stop being absent	He is not doing anything to be able to give him any feedback	Start showing up!

Below you are expected to assign a grade between 0 and 10 per group member (including yourself) on how well the person contributed to the project, and how proactive this person was.

	Aya	Alaa	Erfan	Alexander
Contribution to project	8	8	8	0
Proactive attitude	8	7	7	0
