

Questions:

Date: 11/09/2022

Time: 15:30-16:00

Location: Fontys R10

Participants: Marielle Fransen, Aya Shikh Suliman, Alaa Bolbol, Erfan Alizada

- 1- What do you expect to have on your website? Such as buying tickets function, employee schedule and sending reports. Is there anything else you would like to display on the website?
- 2- Do you also want to show information on the website about the animals you have in the zoo? For example a picture of each animal with their corresponding information.
- 3- Do you need a QR code functionality which can contain an animal information which shows the animal information after being scanned by someone?
- 4- Do you want to send the tickets to the customer's email address after buying the ticket or just display the ticket in a format that they can download and print it later on?
- 5- Do you want to have a media page on which you can post the pictures and video's you want corresponding to the zoo's situation or if there is a new animal in the zoo for example?
- 6- Do you have any social account like Facebook, twitter or a YouTube channel for the zoo that you would like to put a link on the website to this pages so people can follow the latest news on those platforms as well?
- 7- Do u need a feedback or review system on the website so people can share what they experienced while visiting the zoo?
