Decisions we made:

- URS:
 - Change name for use case 1 in employees
 - Add letter a to all extensions
 - Make step 5 in use case 3 for employees clear
 - Use case 4 in employees:
 - Remove step 5
 - Edit step 2
 - Same extension two times?
 - Give option for forget password?
 - Use case 5 in employees:
 - The extension might be okay. It's okay to have an empty schedule. Its not counted as an extension. Should u show a message to the user that there are no shifts scheduled yet! Then it is an extension.
