

Notes:

Date: 10/21/2022

Time: 10.00 – 11.00

Location: Fontys R10

Participants present: Michiel Koehorst, Aya Shikh Suliman, Alaa Bolbol, Erfan Alizada

Decisions we made:

- Project plan:
 - o Make the diagram clearer.
- URS:
 - o Change check to view.
 - o Change the feeding timetable use case to adding a feeding time for an animal.
 - o Remove system selects information.
 - o Think about adding the feature notification!
 - o Assign an employee!
 - o Show what the system is doing!
 - o Use case 2: extension: 2a. call it and then what mention what we can do if that happens
 - o 3: what can we change?
 - o 4: add a pre-condition.
 - o Add details page for health schedule.
- Database:
 - o Add a class for location.
 - o Add a description for location.

Actions we are going to take:

- Write meeting notes
- Write agenda
- Update URS
- Update project plan
- Connect database
- Start implementing new functionalities
